

# VIRTUAL Field Trips

The National WWII Museum offers the following interactive **videoconferences** for your students. Each live program lasts about an hour. You must be able to videoconference through IP. All programs include pre and post-curriculum materials. **COST:** \$100 per videoconference (*volume discounts available*).

## D-Day

### The Turning Point of the War in Europe

Get briefed on Operation Overlord through maps and audio-visual presentations. Students make the big decisions alongside Eisenhower, like where and when to launch the invasion. Hear Ike's Order of the Day and listen to oral histories of two D-Day survivors.

## Iwo Jima

### and the War in the Pacific

Survey the Island-Hopping campaign using maps and viewing archival footage and hearing oral histories. "Read" a Navy *shellback* certificate and participate in an Equator-crossing initiation. Explore the Iwo Jima campaign and analyze the photograph and film of the flag-raising on Mt. Suribachi.

## "Don't You Know There's A War On?"

### The Home Front during WWII

Students explore rationing, scrapping, War Bonds, and war production through the eyes of children. Together they find answers more satisfying than the wartime standard: "Don't You Know There's A War On?" Primary sources viewed include wartime newsreels, posters, photographs, and songs.

## Double Victory

### African Americans in WWII

Meet Pearl Harbor hero Dorie Miller, the Montford Point Marines, and the Tuskegee Airmen. Learn about the struggle for racial equality in war factories and in the barracks and trace the historic path from segregation to integration in the military and beyond.

## Continuing the Warrior Tradition American Indians in WWII

This lesson leads students through a brief history of American Indians in the armed forces and traces the stories of American Indians who served on the battlefields and the Home Front during WWII. Medal of Honor recipients, Code Talkers, and an Iwo Jima flag raiser help dispel old stereotypes.

## Los Veteranos Latinos in WWII

Because Latinos did not serve in segregated units, as African Americans did, their WWII history is sometimes overlooked. Was their history unique, and if so, how? Students learn about Latino WWII heroes and average soldiers, as well as issues of ethnicity and acculturation on the Home Front.

## A Day of Infamy

### The Japanese Attack on Pearl Harbor

In the war that changed the world it was the day that changed the war. That day brought the U.S. into WWII, adding the strength and determination of America to the Allied arsenal. Students explore Japanese and American motivations and actions through maps, primary sources, and role playing.

## The War that Changed Your World Science and Technology in WWII

Today's televisions, computers, and cell phones can all trace their origins to technological advancements realized during WWII. Students learn about radar, rockets, jets, penicillin, blood plasma, computers, and the atomic bomb; and how these inventions continue to affect their lives today.

**NEW**

## Keeping It Real Choosing & Using Primary Sources

This program is designed to introduce (or reinforce) the importance of using primary sources when researching papers and projects. Students explore the differences between primary and secondary sources, discuss where to find them, and take a special look at the pros and cons of using the Internet as a research source. Students then use their new-found knowledge to evaluate a set of primary sources related to D-Day.

To schedule a Virtual Field Trip or for more information, call 504-528-1944 x 351, or email [virtualclassroom@nationalww2museum.org](mailto:virtualclassroom@nationalww2museum.org).
