

# WWII THE NATIONAL WWII MUSEUM VICTORY GARDEN field trip for grades 2-5

## Get digging

Get your hands dirty in the Museum's newest hands-on field trip! Students will dig into the history of Victory Gardens in our student resource center, explore the Museum's Home Front exhibits, and plant their very own seeds in the Museum's on-site Victory Garden.

## Working together for Victory

Planting a garden can be easy, but it takes teamwork. Students will experience first hand how communities worked together during the war for a common cause--Victory!

## Take it home with you

The fun doesn't end when you leave the Museum. Students take seed packets home to start Victory Gardens of their own!
