with Get in the Scrap!

Get in the Scrap!

WITH THE NATIONAL WWII MUSEUM

How to play:

- Click on the price value in the category of your choice.
 - Answer the question in the form of a question.
 - Click on the answer button to reveal the answer.
 - Click on the house to return to the game board.
- Do not move around slides because that will change the price values that have already been matched up with their questions.
- Compose 5 questions for the category: “Your State during WWII.”
 - All price values have been linked to their pages, so you will only have to add question and answer.

Students during WWII	Energy Conservation	The US Home Front	Scrapping vs. Recycling	Your State during WWII

The American Home Front: 100

What does the term Home Front mean?

ANSWER

**Term given to
the US during
WWII, as
opposed to the
battle fronts.**

A vast majority of Americans (114 million out of 130 million) experienced WWII on the Home Front.

The American Home

Front: 200

These were grown in families' yards in order to provide the household with fresh vegetables, fruits, and other food items and to cut down on the amount of rationed items the family purchased at the grocery store.

ANSWER

Victory Gardens

The American Home

Front: 300

What tool did the government use to call people to join the military, workforce, buy war bonds, or to not waste food?

ANSWER

Propaganda

The American Home Front: 400

Why did the Americans ration items on the Home Front?

ANSWER

**Do with less—
so they'll have
enough!**

RATIONING GIVES YOU YOUR FAIR SHARE

Multiple reasons:

- Food was in short supply
- Processed foods were reserved for shipping overseas to our military and Allies
- transportation of fresh foods was limited due to gasoline and tire rationing

The American Home Front: 500

DAILY DOUBLE
