The vertical snow-capped peaks, winding alpine trails, and emerald lakes of the Italian Dolomites and Austrian Alps showcase some of the world's most glorious natural beauty. But during World War II, they were also the setting for the virtual suicide missions of the Brenner Assignment. This is the story of one of the most brutal yet untold shadow wars involving American OSS commandos, forerunners to the US Army Special Forces who forged the original "Inglorious Bastards." Behind the lines, the truth was far stranger than fiction.

Uncover a secret world by retracing the footsteps of these operators first brought to life by author, military historian, and special

operations expert Patrick K. O'Donnell. Based on his award-winning and best-selling books *Operatives*, *Spies and Saboteurs*, *The Brenner Assignment*, and *They Dared Return*, this groundbreaking tour relives the behind-the-lines drama of an unknown theater of World War II. O'Donnell and Gordon H. "Nick" Mueller, PhD, Founding President & CEO Emeritus of The National WWII Museum, will guide guests on a remarkable journey through history, highlighting some of the greatest special operations stories of the war—and venturing where no tour has ever gone before.

Their objective was clear but perilous: cripple German supply lines, empower the Italian partisans, and strike at the heart of the Brenner Pass.
